## SSLC VISION STATEMENT

SSLC is concerned with the values, which are implicit in the process of which we are working in our society as part of the British society.

- Sslc concern is ultimately for the dignity and worth of every human being recognising her or his role in society and the interrelationship with the global environment.
- Sslc recognised the need of the poor, oppressed and marginalized to be empowered and to choose their own path to development.
- Sslc seeks to celebrate what we have in common with our fellow human beings, in our rich diversity of cultures and traditions.
- Sslc acknowledges the role of education as a life-long process in enabling people to change limiting perspectives, oppressive structures and the lifestyles which depend on them.
- In organising our selves for development education, we value cooperation, democratic procedures and equal opportunities.
- Promoting Sslc effectively with the public, the government, education policy makers and in so doing present a coherent voice.
- Improving Sslc practice by drawing on research into current work in progress, facilitating appropriate training and evaluation, and identifying examples of good practice.
- Linking Sslc practitioners by sharing ideas and knowledge to provide information services, strategically raising funds, and providing advice for small organisations and individuals.
- Building solidarity with in Sslc and the other Somali organisations
- Establishing a strategy for maintaining this vision in a rapidly changing environment.

I agree and supports development and values as incorporated within the SSLC's vision and constitution statements
